**TO WHOM IT MAY CONCERN**

I formerly worked for Parrot Cay Resort and Spa as Projects Director for a period of nearly 5 years and during that time International Trading Group were my main suppliers of building materials and all manner of other associated products.

I tried other Companies and always found that ITG were consistently reliable, competitive, responsive to demands, deadlines and budget requirements and almost without exception, deliver what they say they will both figuratively and literally.

During my work at Parrot cay, we built for Private Clientele that included Keith Richards and Christy Brinkley for multi million dollar residences and carried out extensive capital projects for the Hotel itself including a new \$4 million Spa, refurbishment of all Hotel rooms and bathrooms, installation of additional infrastructure, such as generators, 250,000 gallon water tanks, new RO plants etc and Mark and his team were very much involved in making it all happen smoothly.

I have subsequently left the Hotel and now have my own Company working as a Main Contractor and once again, ITG are my main supplier of materials. We are currently constructing a 20,000 square foot residence for Donna Karan and the finishes and deadlines are very demanding.

I have absolutely no hesitation in recommending Mark and his team at ITG. It is rare these days to come across such a dedicated and responsive Company.
